- Village Broadband
- Internet To Schools
- ❖ Telemedicine
- **❖** E- Governance
- Cellular Services

#### **GOI Commitment to Rural Broadband – Generating Demand**

- Great emphasis and commitment from GOI to connect remaining unconnected villages
- \$16Bn fund for connecting 640K unconnected villages – announced on August 23
- Plan to connect the unconnected villages in the next 2.5 years
- The plan is to take Fibre / Broadband to home with the help of local village entrepreneurs (Udhyamis)
- ❖ Have provisioned 10% for alternate wireless technologies other than Fibre \$1.6Bn
- **❖** GEO, MEO, LEO all included in the list of alternate technologies

# Cabinet approves Rs 1.39 lakh cr for last mile BharatNet connectivity

By Subhrojit Mallick, ET Bureau • Last Updated: Aug 05, 2023, 05:17 PM IST

#### Synopsis

The cabinet has approved a last-mile broadband connectivity plan under the BharatNet project for 6.4 lakh villages across the country with a financial outlay of Rs 1.39 lakh crore, a top government official said. The broadband connectivity project has already connected 1.94 lakh villages, with the rest likely to be completed in two and a half years.

villages, with the rest likely to be completed in two and a half years.

## **Satellite Fitment – Rural Connectivity**

#### **Satellite Fitment - Rural Communities Use Cases**

#### Segment

#### Ultra Rural Village (~50 users)

#### **Details**

- Unserved village 10 ~ 50 users
- Solar Powered
- Simplest & low cost of deployment.
- Using WiFi enabled handheld devices

#### Rural Village (~100 users)

- Mid size villages (50 ~ 100 users
- Solar as Backup
- Typically, on Gram Panchayat rooftop
- Using WiFi enabled handheld devices
- PSTN expansion an option

#### Large Community (250+)

- Larger area covering (500+ people using mobile / broadband)
- Bigger mast with Captive LTE/5G
- Broadband access using WiFi enabled handheld devices
- PSTN expansion an option

Coverage

~100 m

~ 1 Kn

~ 7 Km
