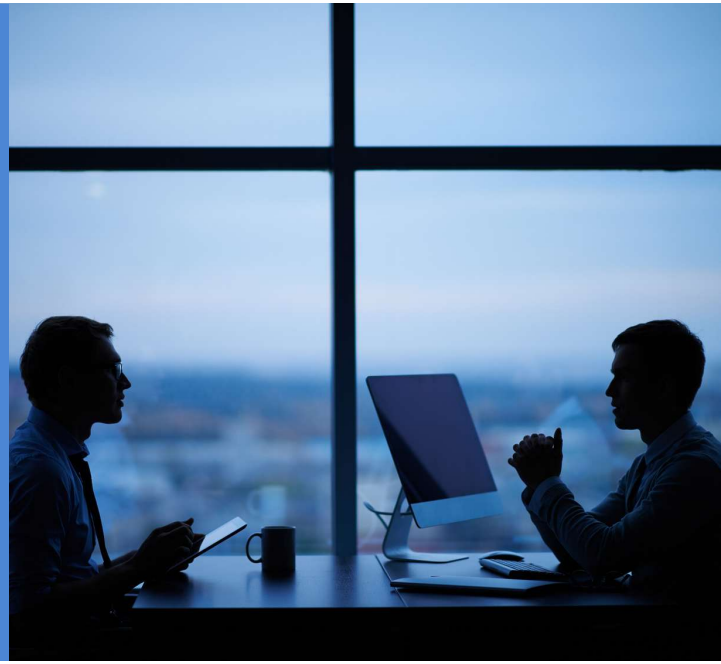
Container Monitoring



LEARN MORE

TechBridge
Making the World Smarter

Docker Server

- Resource Usage
- Unauthorized access attempts
- Performance Issues

Docker Container

- Activities
- Network Connection
- File System Changes
- Process execution

Benefits

TechBridge
Making the World Smarter

Cloud Monitoring

- Centralized view of user actions across the entire cloud infrastructure
- suspicious or unauthorized activities
- Threat Hunting

Docker Monitoring

- Detect suspicious behaviour
- Identify malware or malicious processes
- Respond to security incidents in real-time
